

AUCTION PROCUREMENT

This year, Staten Island Academy is adding an online component to our auction! This will begin running several weeks prior to the event itself – possibly as early as Mid February. We will have much greater flexibility in accepting things that in the past might have been overlooked due to table space at the event itself.

- The Live Auction will have approximately 30 lots.
- The Silent Auction (at the event) will have approximately 20 lots.
- The Online Auction may have as many lots as possible; moreover, items that are listed in the online component must be able to be won by someone outside the SIA community – it will be open to the public.

Items Needed for Auction
